After a two-year break due to the pandemic, the museum from May 14 from 18.00 to May 15 at 01.00, night guests were welcomed. Great interest of visitors was caused by the opportunity to board and touch the modern fire-fighting rescue mobile equipment of Brigade 9 of Riga, significant activity, until the end of the event, did not fade while performing the tender tasks for the emergency situation bag assembly. Active was the new generation around field phones and city phone with a digital puck, where it is possible to call and communicate. A lot of visitors left their wishes of good and gratitude to the Ukrainian firefighters, which we will design accordingly and send to the addressees. Thank you for your activity, so that what is offered and gained in the museum is useful on a daily basis!
